

6640 HRC-100E (.004")
Tetrastige Camera Film

Konica Total Solutions

6640 HRC-100E (.004")
Tetrastige Camera Film

Features & Advantages:

- High contrast emulsion to reproduce excellent line and halftones
- High density for increased exposure and processing latitude
- High speed emulsion for shorter exposures and greater productivity
- Excellent dot quality dots with less edge fringe for true dot for dot reproduction
- Processing compatibility in all Konica Tetrastige developers for maximum system utilization
